

High Priority Issues - Education and Outreach Plan
Date Developed - August 1, 2020

Permit Cycle: Nov. 1, 2018 - October 31, 2023

				Anticipated Schedule - FY20 and beyond	
High Priority Issue	Rationale for Selecting this Issue	Target Audience	Strategies Used		
1	Pet Waste: Scoop the Poop	Reducing impacts to waterways with local bacteria impairments and seasonal algal blooms	Dog owners	Paid media campaign (TV, radio, newspapers)	Ongoing
				askHRgreen e-newsletter and social media posts	Each Summer
				Green Learning Guide for every 3rd grader	Online/Ongoing
				Pet waste stations provided by askHRgreen.org	Fall 2019
				Printed brochures	Ongoing
				Promotional items - Dog waste bag holders, bumper stickers, and hand sanitizers	Ongoing
				Information on askHRgreen.org	Ongoing
2	Lawn Care	Reducing algal blooms and nutrients concentrations in surface waters	Homeowners	Paid media campaign (TV, radio, newspapers)	through HRPDC
				askHRgreen e-newsletter and social media posts -fertilizer	Each Spring
				askHRgreen e-newsletter and social media posts -leaves and lawn debris	Each Fall
				Rainbarrel Workshops	Spring 2019
				Promotion of soil test kits	Spring 2019
				"Drains to Waterways" storm drain medallions	Ongoing
				Printed brochures	Ongoing
				Promotional items - message pens, soil test kits	Ongoing
				Information on askHRgreen.org	Ongoing
3	Proper Disposal of Fats, Oils, and Greases (FOG)	Preventing sanitary sewer overflows caused by improper disposal of fats, oils, and grease	Restaurant owners and employees, grease haulers, and general public	Paid media campaign (radio ads, social media ads, and targeted display ads)	Nov. and Dec. 2019
				askHRgreen e-newsletter and social media posts	Each Winter
				Training and certification website - www.HRFOG.com	Ongoing
				Promotional items - grease can lids, scrapers, sponges, sink strainers	Ongoing
				Printed brochures	Ongoing
				Information on askHRgreen.org	Ongoing
4	Pollution prevention education to commercial entities: 1) Auto Care Businesses, 2) Pet Care/Groomers/Boarding Businesses, 3) Landscaping and Lawn Service Providers	Prevention of Illicit discharges from businesses most likely to contribute oils, bacteria, and nutrients	Owners and employees of businesses most likely to contribute oils, bacteria, and nutrients	Bay Star Businesses program	Ongoing
				Rack card brochures tailored to each businesstype	varies locations
				Direct mailing to landscapers	Ongoing
				Promotional items - Bay Star Businesses window clings and notepads	Ongoing
				Information on askHRgreen.org	Ongoing

Attachment 2.c – York County Public Involvement

1. York County personnel/Beautification Committee members attended four farmers markets for FY23, with representation from the Hampton Roads Planning District Commission, or HRPDC (staff procured the askHRgreen.org trailer for one of these events). Displays and promotional items informing citizens of the importance of clean water, mosquito control, litter control, and recycling were provided to attendees. Attendance for each event was approx. 1000 - 1500.
2. In FY23, York County Beautification Committee promoted our Community Cleanup and Adopt-A-Spot Programs on web and social media to promote clear, litter-free waterways. Three largescale cleanup events were completed, as well as several smaller cleanups, which resulted in approx. 120 volunteers collecting 1200 lbs. of trash. Adopt-A-Spot locations collected approx. 460 lbs. of trash.
3. York County conducted five household chemical collection events in FY23 where residents could properly dispose of unwanted household chemicals. All of these events include paper shredding opportunities where citizens could shred personal papers on site. The paper was recycled by the vendor, over 25,000 lbs. of paper was shredded.
4. York County distributed 2,000 copies of the “2023 Beautiful York County” Calendars, which include articles about stormwater efforts, disposal processes, mosquito control, recycling, native planting/local pollinator support, composting, and litter control. The theme of the 2023 calendar is “What makes York County beautiful to YOU?” with photographs taken in York County by local residents.
5. The County publishes a weekly and quarterly online newsletter which includes information, FOG, recycling, mosquito control, and stormwater. The County also publishes regular videos containing information about local projects, clean waterway efforts, litter control and recycling, and other info important to Public Works.
6. York County participates in various regional HRPDC/askHRgreen.org programs, such as “Scoop the Poop”, to include pet waste station distributions to local HOAs (to reduce the amount of pet waste in local waterways) and cigarette waste disposal structure distributions to local businesses that would benefit from them. Six pet waste stations were granted in FY22, and eight cigarette waste disposal structures were granted. Other promotional items distributed for this campaign included collapsible dog water bowls, stress squeezers, and pet waste bags/dispensers.
7. Five local school learning gardens were improved during FY23. Improvements included ADA additions, such as wheelchair accessible path installations, native plant additions to support local pollinators, and environmentally-friendly maintenance programs. Materials were also provided to civic groups/non-profits for pathway improvements and garden installation.

8. The York County Beautification Committee collected over 10,500 lbs. of plastic bags for the Trex Recycling Challenge, and received two composite benches to be donated to local schools. In addition, the York County Library Board also collected approx. the same amount of plastic bags, and received two composite benches for their learning garden areas.
9. York County Public Works participated in the Sierra Club Roundtable Presentation on Green Initiatives in September 2022. This roundtable enabled County personnel to share information on how the County is reducing greenhouse emissions, and to learn what our neighboring localities are doing as well.
10. Five public service campaigns were continued to share with local residents through our website, social media, and our outreach presentation formats. These included:
 - a. Cigarette Litter Campaign (#NoButtsAboutIt)
 - b. Start Smart, Recycle Right
 - c. No Wipes in our Pipes
 - d. Scoop the Poop
 - e. FOG (Grease Grinch)
11. Other informational campaigns included:
 - a. Household Chemical Disposal
 - b. Fight the Bite (Mosquito Control)
 - c. Keep the Beaches Clean
 - d. Share H2O (Share Help to Others, Water Campaign)
12. York County Public Works partnered with the York-Poquoson Sheriff's Office/D.A.R.E. program to collect expired and unused medications for the DEA Drug Take Back Day (two events in FY2023). Results include:
 - a. Over 300 lbs. of medication collected
 - b. 10,000 lbs. of paper recycled
 - c. 40 lbs. of plastic bags collected and recycled
 - d. 500 lbs. of food collected for the local food pantry
13. Public Works staff participated in one local elementary school STEAM Night event, with an interactive display about oil spills and the challenges of cleanup efforts.
14. Public Works staff participated in three youth events designed to teach rising kindergarten students the importance of public safety. Promotional items were distributed that included environmental themes, such as "Only Rain Down the Drain" and litter control.
15. York County Mosquito Control collected 99 tires at Earth Day Tire Amnesty event on 4/22/2023.

16. Mosquito Control Division participated in two elementary school career days (youth educational event). Staff interacted with 600-700 students to discuss the benefits of a career in science and Public Works.

17. Mosquito Control Awareness Week was recognized in June FY2023. The goal of National Mosquito Control Awareness Week is to educate the public about the significance of mosquitoes in people's daily lives and control efforts around the world.
