

High Priority Issues - Education and Outreach Plan
Date Developed - August 1, 2020

Permit Cycle: Nov. 1, 2018 - October 31, 2023

				Anticipated Schedule - FY20 and beyond	
High Priority Issue	Rationale for Selecting this Issue	Target Audience	Strategies Used		
1	Pet Waste: Scoop the Poop	Reducing impacts to waterways with local bacteria impairments and seasonal algal blooms	Dog owners	Paid media campaign (TV, radio, newspapers)	Ongoing
				askHRgreen e-newsletter and social media posts	Each Summer
				Green Learning Guide for every 3rd grader	Online/Ongoing
				Pet waste stations provided by askHRgreen.org	Fall 2019
				Printed brochures	Ongoing
				Promotional items - Dog waste bag holders, bumper stickers, and hand sanitizers	Ongoing
				Information on askHRgreen.org	Ongoing
2	Lawn Care	Reducing algal blooms and nutrients concentrations in surface waters	Homeowners	Paid media campaign (TV, radio, newspapers)	through HRPDC
				askHRgreen e-newsletter and social media posts -fertilizer	Each Spring
				askHRgreen e-newsletter and social media posts -leaves and lawn debris	Each Fall
				Rainbarrel Workshops	Spring 2019
				Promotion of soil test kits	Spring 2019
				"Drains to Waterways" storm drain medallions	Ongoing
				Printed brochures	Ongoing
				Promotional items - message pens, soil test kits	Ongoing
				Information on askHRgreen.org	Ongoing
3	Proper Disposal of Fats, Oils, and Greases (FOG)	Preventing sanitary sewer overflows caused by improper disposal of fats, oils, and grease	Restaurant owners and employees, grease haulers, and general public	Paid media campaign (radio ads, social media ads, and targeted display ads)	Nov. and Dec. 2019
				askHRgreen e-newsletter and social media posts	Each Winter
				Training and certification website - www.HRFOG.com	Ongoing
				Promotional items - grease can lids, scrapers, sponges, sink strainers	Ongoing
				Printed brochures	Ongoing
				Information on askHRgreen.org	Ongoing
4	Pollution prevention education to commercial entities: 1) Auto Care Businesses, 2) Pet Care/Groomers/Boarding Businesses, 3) Landscaping and Lawn Service Providers	Prevention of Illicit discharges from businesses most likely to contribute oils, bacteria, and nutrients	Owners and employees of businesses most likely to contribute oils, bacteria, and nutrients	Bay Star Businesses program	Ongoing
				Rack card brochures tailored to each businesstype	varies locations
				Direct mailing to landscapers	Ongoing
				Promotional items - Bay Star Businesses window clings and notepads	Ongoing
				Information on askHRgreen.org	Ongoing

Attachment 2.c – York County Public Involvement

1. York County personnel/Beautification Committee members attended four farmers markets for FY22, with representation from the Hampton Roads Planning District Commission, or HRPDC (staff procured the askHRgreen.org trailer for one of these events). Displays and promotional items informing citizens of the importance of clean water, mosquito control, litter control, and recycling were provided to attendees. Attendance for each event was approx. 1000 – 1300.
2. In FY22, York County Beautification Committee promoted our Community Cleanup and Adopt-A-Spot Programs on web and social media to promote clear, litter-free waterways. Three largescale cleanup events were completed, which resulted in approx. 160 volunteers collecting 1600 lbs. of trash. Adopt-A-Spot locations collected approx. 317 lbs. of trash.
3. York County conducted five household chemical collection events in FY22 where residents could properly dispose of unwanted household chemicals. All of these events include paper shredding opportunities where citizens could shred personal papers on site. The paper was recycled by the vendor.
4. York County distributed 2,000 copies of the “2022 Beautiful York County” Calendars, which include articles about stormwater efforts, disposal processes, mosquito control, recycling, native planting/local pollinator support, composting, and litter control. The theme of the 2022 calendar is local pollinators, with photographs taken in York County by local residents.
5. The County publishes a weekly and quarterly online newsletter which includes information about illicit discharges, FOG, recycling, mosquito control, and stormwater. The County also published four quarterly videos containing information about local projects, clean waterway efforts, litter control initiatives, and other info important to Public Works.
6. York County participates in various regional HRPDC/askHRgreen.org programs, such as “Scoop the Poop”, to include pet waste station distributions to local HOAs (to reduce the amount of pet waste in local waterways) and cigarette waste disposal structure distributions to local businesses that would benefit from them. Two pet waste stations were granted in FY22, and two cigarette waste disposal structures were granted.
7. Three local school learning gardens were improved during FY22. Improvements included ADA additions, such as wheelchair accessible path installations, native plant additions to support local pollinators, and environmentally-friendly maintenance programs. Materials were also provided to civic groups/non-profits for pathway improvements and garden installation.
8. The York County Beautification Committee collected over 9,000 lbs. of plastic bags for the Trex Recycling Challenge, and received two composite benches to be donated to local schools. In addition, the York County Library Board also collected approx. the same amount of plastic bags, and received two composite benches for their learning garden areas.

Attachment 2.c – York County Public Involvement

9. York County Public Works participated in the Sierra Club Roundtable Presentation on Green Initiatives in September 2021. This roundtable enabled County personnel to share information on how the County is reducing greenhouse emissions, and to learn what our neighboring localities are doing as well.

10. Five public service campaigns were continued to share with local residents through our website, social media, and our outreach presentation formats. These included:
 - a. Cigarette Litter Campaign (#NoButtsAboutIt)
 - b. Start Smart, Recycle Right
 - c. Litter Control/Cleanup Kits
 - d. No Wipes in our Pipes
 - e. Scoop the Poop

11. Other informational campaigns included:
 - a. Household Chemical Disposal
 - b. Fight the Bite (Mosquito Control)
 - c. Keep the Beaches Clean

12. York County Public Works partnered with the York-Poquoson Sheriff's Office/D.A.R.E. program to collect expired and unused medications for the DEA Drug Take Back Day (two events in FY2022). Results include:
 - a. Over 200 lbs. of medication collected
 - b. 12,000 lbs. of paper recycled
 - c. 40 lbs. of plastic bags collected and recycled
 - d. 400 lbs. of food collected for the local food pantry

13. York County Mosquito Control collected 90 tires at Earth Day Tire Amnesty event on 4/30/2022

14. Public Works Mosquito Control Division held BugFest Event in May 2022, youth educational event. Public Works staff handed out reusable bags with Mosquito Control branded logo containing materials about recycling and litter prevention, flooding, Green Learning Guides, Parks & Recreation information, New Quarter Park Schedule, Mosquito Control specific info. Estimated attendance for this event 500 – 600 people.

15. York County distributed five welcome packets to local residents who applied for HRPDC Stormwater Committee's Bay Star Homes program. Participants make a commitment to clean waterways, such as growing "green", conserving resources, and making choices to protect water, and they then share their pride with garden flags displaying the program's logo.

York County Training Plan 2022

- 1. Recognition and Reporting of Illicit Discharges**
 - a. Training in Good House Keeping Plan**
 - b. All stormwater maintenance crew members (12 employees) will be trained biannually in recognizing and reporting illicit discharges.**
 - c. In-house training was done in August 2021 on the proper use of the Stormwater Outfall Inspection Report to satisfy this requirement.**

- 2. Pollution Prevention in Road, Street and Parking Lot Maintenance**
 - a. See Good House Keeping Plan**

- 3. Pollution Prevention and Good House Keeping in Maintenance and Public Works Facilities**
 - a. Facilities superintendents meet with York County Stormwater Inspector yearly to go over Good House Keeping Inspection Report**
 - b. Pollution Prevention and Good House Keeping training was done in August 2022 (124 employees).**

- 4. Pesticide and Herbicide Certifications**
 - a. All three York County stormwater maintenance crew leaders hold a Category 60 license.**
 - b. The York County Mosquito Control Superintendent and the Biologist hold Category 8 (Public Health) licenses. All remaining Mosquito Control Employees hold Category 60.**
 - c. York County Public Works have 40 employees with Category 60 licenses and 11 employees with Ornamental/Turf - 3A/3B licenses.**

- 5. Erosion and Sediment Control and Stormwater Certifications**
 - a. York County Stormwater Division has 1 Dual Combined Administrator, 1 Dual Program Administrator, 1 Certified Dual Combined Inspector and Plan Reviewer, 1 Certified Dual Combined Plan Reviewer, 6 Certified Stormwater Inspectors, and 6 Certified Erosion and Sediment Control Inspectors**

- 6. Erosion and Sediment Control And Stormwater Certifications: See above.**

- 7. Emergency Spill Response**

- a. All FLS employees (uniformed firefighters) are minimally trained as Hazardous Materials Awareness/Operations Level Responders.
- b. VDEM/VDFP Haz-Mat Awareness/Operations Hazardous Materials First Responder - Awareness/8 Hours, Available through: VDEM, VDFP, VAVRS. This course is designed for anyone who may discover the unplanned release of a hazardous material. The program teaches the use of the USDOT Emergency Response Guidebook, Material Safety Data Sheets, and DOT placards and labels, as well as safety and planning information.
- c. Recertification: Students must recertify/demonstrate competency annually at this level or complete the Hazardous Materials First Responder - Operations course
- d. Hazardous Materials First Responder - Operations/32 Hours, Available through: VDEM, VDFP. This course is designed for individuals who must respond to a release of hazardous materials and perform defensive operations. The program includes information taught in the HMFR Awareness course. The course is designed to meet the recommendations of NFPA 472 and OSHA 1910.120 (q)(6)(ii). The course teaches first responders incident stabilization techniques such as incident profiling, hazardous materials behavior modeling, incident planning and the Incident Command System. In addition to incident stabilization techniques, first responders learn defensive tactical control skills including damming, diking, diversion and retention of products, and decontamination of personnel.
