County Launches New Portals for Managing Personal, Business Accounts

Earlier this week, York County mailed postcards to all residences with information about the new account management and payment portals. The County will continue to mail tax and utility bills to its customers. Payments are accepted in person, by mail, deposited in the drop-box, and online. The new software program has an improved layout. The [Taxpayer Portal](#) provides users with direct access to tax accounts including bill history, payments, submissions, and correspondence. The [Utility Billing Portal](#) allows citizens to view multiple utility accounts at the same time and view/download billing statements. Utility bills mailed this week contain the account number and portal access code needed to add accounts after registering with the new portal.
