October 8-14 is Fire Prevention Week

Did you know that unattended cooking is the leading cause of home fires and home fire injuries? Most of these fires, and the injuries they cause, are preventable. With the holidays approaching, now is a great time to learn how to cook safely, so that your celebrations don't go up in smoke. York County's Department of Fire & Life Safety [website](#) has a full page dedicated to Fire Prevention Week. The page has many resources including steps you can take to prevent fires and videos that can help teach you and your family how to stay safe. Fire Prevention Week is celebrated annually in October to raise awareness about fire prevention and home safety.

Road Work Ahead: Some Streets in York County Being Paved by VDOT

Each summer, the Virginia Department of Transportation (VDOT) decides which roads across Virginia will be paved. To determine which roads are on the list, VDOT rates pavement conditions each year considering factors such as pavement condition, the ride quality, and the volume of traffic a road carries. Although a road may not look to be in need of repaving, samples of the roadway under testing can reveal distresses that pose a concern. VDOT projects currently underway include Ft. Eustis Boulevard and Wolf Trap Road. Resurfacing has been completed on Kiln Creek Boulevard, Village Avenue, Commonwealth Drive, and Yorktown Road. Airport Road is also on the list and begins soon. The County has created a page on its [website](#) that lists current paving projects and regional widening plans including Rt. 17 from Wolf Trap Road and Denbigh Boulevard.
