...that someone wrote to you with a POSITIVE story or message?!

Soooooooooooo, please add this to the "Minutes" tonight if appropriate:

On July 5th I went to the dump (a regular occurrence) w/ Jean's pickup. Lots to unload at the recycle and dumpsters...

Kelly was at the guardhouse (dumpsters). We've met her several times throughout the years...She's always been cordial, but that day, embarrassingly, I closed AND locked the keys inside Jean's pickup! ...Kelly came over after I unloaded. She said, "please come inside and have some water". We now have A/C and a fan...It was 95-degrees w/ 90% humidity! I thanked her profusely and she shared stories "about my upbringing, and this is the way my Parents raised me".

IN addition, we saw Supervisor/Manager "Duke" come by a couple times. First time was to pack down the dumpsters...Second time, was to "check on the guy in the Guardhouse"!

After 1 1/2 hours, my (annoyed) Wife arrived w/ spare truck keys (and Adult daughter and Granddaughter) -- they were shopping ! :)

Today I went by to express my Gratitude w/ a card and Gift Certificate...PLEASE be sure to pass on my appreciation for Kelly's kindness and benevolence. (It was not clear whether she was a York County employee or RSG employee). In addition, please tell "Duke" next Beer or adult beverage is on me...Thank You.

Sincerely,
Steve Kennedy
