Supervisors: And I use that title generously at best.

I have been a resident of YC in excess of 40 years and have watched boondoggle after financial boondoggle be thrust upon the taxpayers and citizens of this county.

Your approach to development is at best laughable. Here's one for Tom and Sheila - both of you who were "in charge" when the Marquis and Beales and the Waterfront Developments took place. Well we know how the first two financially turned out - and the waterfront while pretty came/and continues to come at what cost to the taxpayers??? Sad - but none of the supervisors have a clue I'm sure (partly by design and partly by incompetence). And then there was the Princess Cruise line fiasco orchestrated by our last CA and you Tom. Citizens were meeting the dark while you and the last CA (who brought us Beales - exploding bureaucracy - and of course the overhead \$'s with it).

Last year I asked one of the supervisors why our taxes continue to rise given the heavy increase in people now living in homes in the county. He stated because the homes being built unfortunately can't be taxed high enough (due to their perceived value) to absorb the necessary costs to support the inhabitants (schools - fire and safety / other). Huh - yet we (you chaps) continue to allow this type of construction?

So you've made quite the mess of things over the years - poor development plans - excessive government growth - and on and on.

I passed by Beales yesterday on

My way home from my business. First customers ! Yeah for Beales who pulled off the real estate deal of the century on the taxpayers and boo to the supervisors involved in the financial fiasco that let it happen.

Let's start here - freeze any new hiring - start looking very closely at how/why the county continually calls in so called expert consultants (lol) to navigate what should be done internally. Get the heck out of the sale and development of commercial space - as you've proven incapable of making sound financial decisions (it's your fiduciary responsibility to the citizens) and press your CA for periodic (monthly or quarterly) reporting on the county set up as cost centers (something that I brought up years back with Zaremba - with no response nor action).

There's quite a bit more however I'll leave it with this one final observation - DISCONTINUE large scale expenditures on behalf of the CITIZENS without a vote on the issue FROM THE CITIZENS.!

I hear you're considering a doubling of the court campus due to "the need for document storage and the addition of a judge and his entourage". I took 30 minutes of my time and uncovered a building being used no more than 40 percent of the time.

FY2027 Budget Question/Comment Form

What question(s) would you like to ask regarding the FY2025 Budget?

Why do y'all continue to over spend our money? Why do you feel the need to add in all these extra buildings such as the admin building and new court house? Why do we have electric car chargers all over the county running on our taxes? Why does the board think it's acceptable to keep putting the burden on the home owners? Why are y'all trying to get the elderly out by continuing to raise the taxes? As you can see I have a ton of questions. It's obvious our Bos has been hijacked and aren't for the people.

What comment(s) would you like to leave regarding the FY2027 Budget?

It's bullshit simply put. Running the county into the ground. We Hate the city it's becoming.

FY2027 Budget Question/Comment Form

What question(s) would you like to ask regarding the FY2025 Budget?

Part of a budget is not only seeing where taxpayers money can be the most well spent, but also cutting expenses to stay inside a budget. What, if any, expenses are you cutting to keep budget expenditures down?

What comment(s) would you like to leave regarding the FY2027 Budget?

Cut expenses. Cut waste. Lower the budget.

Subject: EV Charging Stations still "free?"

[You don't often get email from [REDACTED]. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

BoS,

As a county resident, I am inquiring when the taxpayers "free" EV charging stations will become paid for by those using it? I watched the Board working session last year when this was discussed as unfair and voted to add a payment system to these charging stations but, today, I saw a York County VA Facebook post invite EV owners to use them for "free" at the libraries.

Why are they still being advertised as "free?" Why is a payment system not added yet?

Subject: Skate park in York County

You don't often get email from [REDACTED]. [Learn why this is important](#)

Hello, I am Theresa Lackey & I have a son & a grandson, along with all their friends that ride bikes, skateboards or roller skate and they need a skate park here in The County! I live off Dare Road. I think it's important to keep these kids busy & away from the TV or video games all the time! The skate park will also be a place to keep kids excited & having fun as well as keeping them out of trouble!

Please put York County's citizens \$ to good use! Use it for our kids instead of cutting trees down at the beach! There's enough room at the park behind Wendy's to make a skate park back there. Yall already own the land, so it shouldn't be a problem. If you've got reasons of why we shouldn't have a skate park, I'd personally would like an email back to me to discuss what your reasonings are. This is about our future.. Our Kid's & Our Grandkid's future! Do something to help keep them out of trouble. Yorktown puts a persona on & we who live in The County know that alot of bad things are hidden from the public, so that Yorktown can keep their reputation! So, Please, do something right for this generation & the next! Thank You!!

Sincerely, Theresa Lackey
